Re: Pictures – Thanks!

I just want you to know how appreciative we were with the services that you provided to our TOC during this past basketball season. The services you provided included pictures of our players, coaches, and cheerleaders that were used to produce Collins Hill's Program Booklet along with taking action shots of individual players. The individual and group poses that were taken by you and your staff our players and cheerleaders reflect the outstanding vision to get the shot that was needed for our program booklet. Everyone knows that it takes great patience and creativity to get the correct pose and shot that's needed. You really accomplished that for our organization.

I received numerous comments from the parents and our coaches how the process was so smooth and quick to complete the picture taking process during Eagle Night. Our board members were very pleased of your services, and are looking forward working with you again.

Thanks!
